

CABLE TESTING AND FAULT LOCATING VAN/TRUCK CUSTOM ENGINEERED PACKAGES

Utilities: URD or Network Systems Package - Electrical Contractors - Large Industrials

Equip your truck or van with an instant cable test and fault locating package from HVI. HVI can engineer and assemble a complete package for cable testing and/or fault locating, installed on a common platform ready to drop into your van or truck. With the many cable testing and fault locating products available from HVI, together we can engineer the perfect package for your application for 5 kV to 138 kV cable. HVI can also supply a complete trailer package.
