

HVI - The World's Source for High Voltage Test Equipment

Advanced test equipment for high voltage proof and preventive maintenance testing of electrical apparatus hvinc.com

VLF TAN DELTA TESTING with *E-LINK SOFTWARE* BETTER DESIGN = BETTER TEST = BETTER RESULTS

The Advantages of E-LINK Software Designed by HVI for HVI VLF/TD
Extensive Data Collection & Reporting, User Definable Fields, Economical, Easy to Use

No PC Required for VLF Withstand & TD Testing

- ⚡ All testing can be performed from the VLF front panel – no computer needed
- ⚡ All test data automatically stored to internal VLF hard drive and front panel USB port
- ⚡ All stored data easily exported to .CSV via wireless to computer or from USB stick

X-Bee Wireless Keeps All Components Connected

- ⚡ Higher connection sustainability - more dependable
- ⚡ No short distance limitations - test from further away
- ⚡ Stay warm, dry, and safe in your truck while testing
- ⚡ No signal interference from other sources
- ⚡ Works in more signal - sensitive locations

HVI Service & Support Advantages

Produced & serviced at HVI
All models & parts in stock
Rapid delivery & service

Improved Data Capture and Reporting Capabilities

- ⚡ Easy export to .CSV for custom reporting capabilities
- ⚡ Continuous rolling average of TD & Std. Dev. results
- ⚡ 6 test results can display at once for comparative analysis
- ⚡ Results summary displayed in several areas of E-Link
- ⚡ Multiple available fields for writing test descriptions
- ⚡ 12 VLF & TD selectable reporting parameters
- ⚡ Use built-in templates or create your own, using your Logo

Remote Control of VLF & TD with PC E-Link Application

All HVI Products are
MADE IN THE USA
