

HVI - The World's Source for
High Voltage Test Equipment

Advanced test equipment for high voltage proof and preventive maintenance testing of electrical apparatus www.hvinc.com

NECA'S SOURCE FOR HV TEST EQUIPMENT

Cable MV/HV - Withstand & Diagnostic Testing

0.10 Hz. Very Low Frequency (VLF)

50/60 Hz. AC Dielectric Testers

Parallel Resonant Technology

VLF - VLF TD - VLF PD

Parallel
Resonance

Cable Fault Locators - Thumpers

3 Full Joule Outputs

0 - 5/10/20 kV @ 1000 J

0 - 9/18/36 kV @ 1.6 / 3.2 kJ

Up to 400 mA Burn Current

Internal TDR/Radar Filter

Contractors Instant Cable Van

VLF & Tan Delta

Data Logger

DC Hipot/Megohm

Thumper & TDR

Fault Pinpointer

100' Cable Reels

All the tools needed in one package

VLF & Thumper Combo

2 Instruments – 1 Package

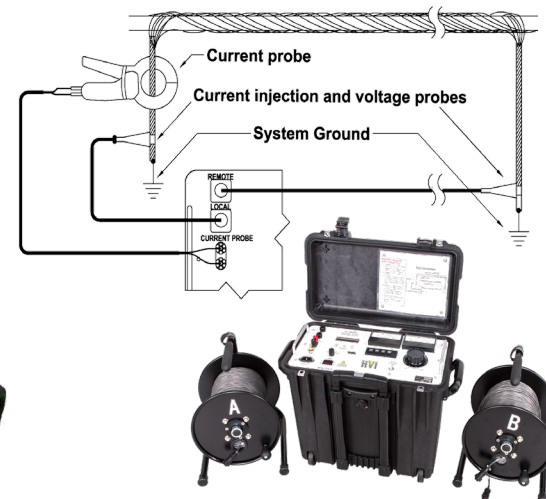

VLF: 0 - 33 kVac @ 0.10 Hz, 1 uF load

VLF Burner: Continuous Discharge

Thumper: 0 - 13 kVdc @ 800 Joules

TDR/Radar Ready

Ω-Check® Concentric Neutral Tester How Good Are Your Neutrals?

Apparatus & Motor/Generator Testing

AC Hipots

DC Hipot
Megohmmeters

Oil Dielectric
Testers

Stator Tester
